POINTS TO PONDER WITH JULIE

If you want happiness for an hour, take a nap. If you want happiness for a day, go fishing. If you want happiness for a year, inherit a fortune. If you want happiness for a lifetime, help somebody.

Night Owls

The International Festival of Owls, a celebration of these mysterious nighttime creatures, will occur during the first three days of March. Is it the owl's nocturnal nature, their swift silence, their chilling calls of "who," or their bizarre rotating necks that make them so fascinating? These birds have figured prominently in our imaginations for millennia. In ancient Greece, the owl was the symbol of Athena, goddess of wisdom. It was believed that an "inner light" gave the owl its superb night vision, and it was considered a good omen if an owl was spied overhead watching you. Because an owl is a bird of darkness, it has often been associated with death. During the Middle Ages, owls were thought to be witches or witches' helpers. American Indians, too, held many beliefs about owls and death. To some, owls were the spirits of the dead. To others, owls were guides of the recently deceased to the underworld. During the Festival of Owls, take the time to encounter one of these magnificent animals up close and you, too, may begin to think they are more than just birds.

RESIDENT OF THE MONTH

Our Resident of the Month is Victor Marshek.

I grew up in Maribel, Wisconsin. We raised our children on a dairy farm that my wife and I bought. We had 90 cows and everyone helped on the farm. We have four children: Kim, Carrie, Callie and Scott.

When we sold the farm, I did custom combining for 45 years and also drove truck for CP Feeds.

In my spare time I like to relax and watch television. My favorite shows are game shows like The Price is Right and Jeopardy.

My favorite thing about Brillion West Haven is the people to meet and I know quite a few here already.

My advice is to love every moment you have.

Heist of the Century

On March 18, 1990, over \$500 million worth of artwork was stolen from the Isabella Stewart Gardner Museum in Boston, Massachusetts. In the early morning hours, guards admitted two men dressed as police officers into the museum. These clever thieves quickly tied up the guards and spent the next hour stealing some of the museum's most valuable art. They stole works by Vermeer, Rembrandt, Degas, Manet, and Flinck. The FBI launched an investigation and, despite following leads all around the world, neither the thieves nor the artwork have ever been recovered. The heist remains the largest robbery of private property in history. Investigators do have their theories about the thieves. It is thought that they were part of an organized crime group from New England and the mid-Atlantic. The stolen paintings likely moved through Connecticut to Philadelphia, where they were illegally sold. Gangster Bobby Donati, an associate of known art thief Myles J. Connor Jr., may have led the robbery under the orders of Boston crime boss Vincent Ferrara. With no admissions or further evidence, there is still hope at the museum. Empty frames still hang on the walls, so visitors can see where the paintings once hung and may hang again.

March Birthdays

In astrology, those born March 1–20 are the slippery Fish of Pisces. Selfless Pisces are very wise and empathetic, making them always willing to help others. These deep emotions also make Pisces talented artists and good friends. Those born March 21–31 are Rams of Aries. Like rams, Aries charge forward with courage, confidence, and enthusiasm. They embrace action, take risks, and will fight for their goals.

The March of Women's History

The month of March is Women's History Month, in recognition of women and their impact on culture and society all around the world. The movement to establish recognition of women's history began in Sonoma, California, in the 1970s. A group of women formed the Education Task Force of the Sonoma County Commission on the Status of Women. Their goal was to include women's history in the local school curriculum. For too long, men had dominated the study while women's contributions had nary a mention. The movement in Sonoma was such a success that it gained traction nationwide. In 1980, President Jimmy Carter established the first Women's History Week, and then in 1987, Congress declared the entire month of March as Women's History Month. Politicians, writers, freedom fighters, scientists, soldiers, athletes—women have made contributions in virtually every field. Honor them this March.

EMPLOYEE OF THE MONTH

Congratulations! Kimberly Mangin is our “Shining Star” for this month. Kimberly was born in Manitowoc, Wisconsin. She is the youngest and has two sisters and one brother. Some of Kimberly’s hobbies include hanging out with her friends and family, shopping and reading.

Kimberly’s favorite place to visit is Seattle, Washington. She said downtown is “super” and the view from the Space Needle is beautiful! Her favorite meal is spaghetti and garlic bread. Summer is her favorite time of the year, as she loves to go camping and being in the sun.

She has been employed with Brillion West Haven over four years now. What she likes most about her job is her co-workers in the kitchen and the residents here at Brillion West Haven.

In ten years or so, she hopes that she has visited every state and at least 5 countries and she wants to be married and living somewhere in the State of Wisconsin.

Kimberly advised that if she won the lottery she would hire a translator and travel the world.
