### ***Meet Rachel - our June Shining Star***

Rachel was chosen to be this month's shining star because of her caring and nurturing nature. She goes the extra mile to ensure our residents get the care they need. She is dependable and is always willing to help - with a smile. Rachel is a CNA and med passer. Rachel was born in Green Bay, WI and has been with Assisted Living by Hillcrest for 3 ½ years. Taking care of the residents is her favorite thing about her job. Rachel loves the residents and enjoys helping them with whatever they might need. In ten years, she plans to still be in the medical field, whether that be as a CNA, Nurse or a Phlebotomist. Rachel has two children, Alexander who is 2 years old and Aniya is 15 years old. Rachel also has two brothers, Harley and Casey. Rachel's favorite season is fall. She enjoys watching the leaves turn different colors and she also loves the smell of the leaves as you walk through them. Rachel's place to visit in California. She has family who live in California and the last time she was there, her cousin built a bonfire on the beach. If Rachel ever won the lottery, she would pay off and fix things in her house. She would also donate to cancer research. Rachel lost her Mom to cancer in 2020.

Thank you Rachel for all you do! We appreciate how you go above and beyond!

### Rock-Hard Artwork.

July 3 is International Drop a Rock Day, a day when people all around the world will participate in the simple act of painting rocks and leaving their small pieces of artwork in places for others to find and enjoy. These small acts of public art are like small, warm hugs for passersby. While it is easy to find rocks to paint while strolling your neighborhood, landscaping and gardening stores often sell rocks for minimal cost. First, make sure to wash your rock of any dirt and debris. Some choose to apply a base coat of paint to create a blank canvas, while others love the look of bare rock as a background. Acrylic paint is perfect for painting rocks, but some people choose paint pens for their ease of use. Lastly, applying a spray sealer will ensure that your artwork lasts, but some enjoy the notion that rock art is temporary. When the paint rubs off over time, someone else will get to paint a fresh message or picture.

### **Life Enrichment Updates:**

Summer will soon be here and the days are getting longer! That also means the weather is getting nicer! We have been able to go outside on the patio already and soon we will be able to have more activities outside! Towards the end of May, beginning of June, we'll be getting our gardens in and we look forward to caring for them together. This month's activities will include but are not limited to, gardening, socials on the patio, holiday themed crafts (for example, a Father's Day craft), Bingo, various dice games, manicures, happy hour and so much more! Starting in May we have been having live entertainment come in twice a month! We look forward to continuing that tradition into June!
